Al Maktoum International Airport (DWC)

Al Maktoum International Airport will be the largest in the world with a capacity of 260 million passengers. It will be five times the size of the current Dubai International Airport. All operations of Dubai International Airport will be transferred to it in the coming years. The airport will include approx 400 aircraft gates and five parallel runways.

It will use new technologies for the first time in the aviation sector.

Once again Dubai will lead the international aviation sector for the next forty years.

Why Choose Preston Properties?

- Decades of expertise in real estate development.
- Unwavering commitment to international standards
