

DUBAI A MARKET RIPE FOR OPPORTUNITY

As global companies set up regional hubs here in Dubai and homegrown enterprises scale rapidly, there is an undersupply of Grade A office spaces.

A key goal of the Dubai Economic Agenda (D33) is to double the size of Dubai's economy over the next decade and to consolidate its position among the top three global cities.

The LX rises in response to this momentum—offering boutique, high-specification offices that blend functionality, style, and strategic location in one of Dubai's fastest-evolving business districts.
